

U.S. EPA and U. S. Steel invite you to the May 19 Spirit Lake Great Lakes Legacy Act Project Public Event

The U.S. Environmental Protection Agency (EPA) and U. S. Steel will be hosting a May 19 public event to highlight the ongoing Spirit Lake remediation and restoration project addressing impacted sediment and soil. The Project Team will provide information about the revised final project design and upcoming remediation activities planned for this year. The Spirit Lake Great Lakes Legacy Act Project is possible through the Great Lakes Restoration Initiative, or GLRI, launched in 2010 to accelerate efforts to protect and restore the Great Lakes.

Shallow Sheltered Bay restoration area (April 2022)
